PROFESSIONAL SUMMARY

Strong in design and integration with intuitive problem-solving skills. Proficient in HTML, CSS, JavaScript, React, and Redux. Passionate about implementing and launching new projects. Ability to translate business requirements into technical solutions. Looking to start my career as a web developer with a reputed firm driven by technology.

PROJECTS

Clone of Credo Beauty |

We live for discovering the best, cleanest indie and luxury brands around, and carry the largest collection of safe, non-toxic beauty products. A collaborative project built by a team of 5 developers executed in 7 days

Features:

- Functionality of Filtering
- Functionality of Hovering
- Media Query
- Sign-in/Sign-up Authentication
- Add-To-Card
- Payment

Tech Stack: HTML | CSS | Javascript | Localstorage

Areas of responsibility:

- Build the Checkout Page - In Checkout page related to payment and shipping/billing details, it basically collects customer's shipping details.
- Build the Payment page - On the payment, page customers are allowed to purchase items easily and secretly.
- Change the CSS of every page to get the same look as the original site.

Clone of Myntra |

This is a Clone website of myntra.com built by 4 developers of the team including me in 6 days. It's an online fashion store where users can come and buy products related to beauty care, fashion, Home living, etc.

Features:

- Sign-in and Signup Authentication.
- Navigation bar for exploring.
- Users can add products to the cart.
- Sorting the products by price and brands.
- Users can place orders.

Tech Stack: HTML | CSS | Javascript | ES6 | Localstorage

Areas of responsibility:

- Sign-in and Signup Authentication.
- Add to cart - user can add product in card/bag.
- WishList Page - if the user links products that can be stored on this page.
- Change CSS in some of the pages.
